EXPERIENCE

Freelance

(Feb 2024)

Frontend Developer

- The Creation of AdZign, a dynamic web application serving as a comprehensive portfolio for a company.
- Utilized PHP and CSS to design, develop, and deploy the application, showcasing the company's services.
- Leveraged PHP for server-side scripting to ensure seamless interaction between the user and the application.
- Successfully managed the AdZign project as a freelance developer, from initial client consultation to final deployment.

Zillionica Technologies

Remote (Oct 2023 – Dec 2023)

Software Trainee Intern

- Gained hands-on experience in frontend development methodologies and best practices while working.
- Developed proficiency in React.js, Typescript, CSS, and SCSS, further honing technical skills and expanding knowledge in frontend development.
- Contributed to the development of the trading application during the internship at Zillionica Technology and focused on enhancing user experience and interface design.
- Engaged in a collaborative work environment, collaborated with cross-functional teams to implement frontend features and resolve technical issues.
